

The martial arts industry is growing in popularity. This is especially true in the US, where many areas are experiencing growth. According to a Statista Study, over 2.34 million people participated in mixed martial arts for fitness in the United States in 2021. The martial arts studio market in the US is worth \$8.16 billion in 2020 and projected to grow to \$9.05 billion in 2022. In 2021, there was \$578 million in wholesale mixed martial arts equipment sale.

Let's face it. MMA is one of the fastest growing sports and America loves to watch MMA fighting. It is estimated that there are more than 300 million MMA fans around the world.
