

Today's children don't know a world without mobile devices, yet according to Statista 2022 research, Television still remains the media of choice among young children, with kids ages 5 to 8 spending 64 minutes watching television each day.

In 2018, kids advertising spending amounted to 4.2 billion U.S. dollars worldwide. Expenditure was forecast to reach 4.6 billion U.S. dollars by 2021. It is estimated that advertisers spend more than \$12 billion per year to reach the youth market and that children view more than 40,000 commercials each year. These figures represent dramatic increases over those from the 1970s.

Parents still worry about children's television. They want their kids to see the wholesome television they watch while growing up. Kids Kazoo TV has the answer. We feature our classic cartoons like Popeye, Superman, Mighty Mouse, Gaspar, Betty Boop and others. We bring the classics to our kids and they are falling in love with them.
